ARMIDALE RAM SALE

February 7th 2024

Exhibition Centre, Canambe St, Armidale

Northern Merino Ram Breeders' Inc

0427 787 339 (Des) 0427 677 874 (Janet) 02 6778 7321 (Judy)

View the catalogue online: www.armidaleramsales.com

Welcome to the 79th Northern Merino Stud Ram Show and Sale, one of the largest multi-vendor merino ram sales in New South Wales. This show and sale is held at the Armidale Exhibition Centre, under the auspices of the Northern Merino Ram Breeders' Inc., in conjunction with agents AWN, Elders and Nutrien Ag Solutions.

The Northern Merino Ram Breeders' and many Southern Studs come together each year to offer leading Australian genetics in ultrafine, superfine and fine wools to wool producers throughout Australia. This venue provides an opportunity for wool producers to secure stud rams of the highest quality. Not only is the quality outstanding, but a broad range of wool types is available and with mutton becoming increasingly important to producers, studs are offering larger sheep with more muscle development in their rams.

Rams can be viewed on Tuesday afternoon. Everyone is invited to the AWI Meet and Greet where wool growers, vendors and purchases can all catch up. This is a good opportunity to meet other wool growers and discuss the industry. Meet and Greet will commence at approximately 4.00 pm Tuesday at the Exhibition Centre and you are welcome to attend.

On Wednesday, rams are available for viewing from 8.30 am with the sale commencing at 10.30 am and interfaced with Auctions Plus. Please register at the desk if you intend to buy.

This catalogue provides you with details of all vendor studs' history and bloodlines, their health status and the number of rams being offered by each stud. On the left hand side are the details of each ram's micron, SD, CV and Com. Factor taken by the stud Principal during 2023 while above the pen is the current micron, SD, CV and Com. Factor and body weight. Rams will be weighed on arrival.

Stud Principals, agents and members of the Northern Merino Ram Breeders' Association are always willing to help you in ram selection or explaining test result details. Please feel free to approach us if you need help or guidance during the show or sale.

The NMRBA is indebted to the many sponsors whose contribution makes this Show and Sale possible. We encourage you to support these businesses during the year as a gesture of appreciation.

Enjoy the culture and atmosphere of the Show and Sale. We are sure you will find the ram you are looking for during the two days.

Without your support and commitment our sale would not be possible.

A big thank you to all.

NMRBA Inc. Life Members.

Mr Carl Carlon

Mr Leo Blanch

GUIDELINES FOR SAMPLE COLLECTION OF RAMS

- 1. Samples are taken in November and sent to AWTA.
- 2. August shorn to be tested in January at AWTA.
- 3. The sample taken, should only be the size of a cigarette packet or size of a narrow comb. Sample must be as close as possible to the skin.
- 4. Samples should be taken on the left side, when standing facing the ram's head.
- 5. The sample should be located from the area designated as the mid-side location.
- 6. If the ram has already been sampled on that side, take another sample as close as possible to the first sample. (Do not include any shorter wool from the first sample).

GUIDANCE FOR NVD COMPLETION

Please transfer all sale rams to the Armidale Exhibition Centre PIC Number NI 024703 on your NVD.

Remember that each ram to be offered for sale, must have an original NVD, no photo copy will be accepted.

GUIDANCE FOR WOOL CLASSIFICATION.

On Tuesday morning the 6th February all rams that vendors intend to show will be classified by the nominated judges.

The chief steward will be present to take entries for the show during classification. Vendors should be available between 11.00 a.m. and 12.30 p.m. for this to make entries and hold nominated sheep for classification.

The Northern Merino Ram Breeders' Association Inc. Committee
would like to thank
Jo Hoad and Uralla Veterinary Clinic
for undertaking the position of Hon. Veterinarian for our organization.

Armidale Stud Ram Show 2024

Open to the General Public Where: The Armidale Exhibition Centre When: Tuesday, 6th February 2024 at 10.45 am

2024 Judges

Trevor Mibus
Ultra and Superfine Rams

Russell Jones
Fine and Fine/Medium Rams

Show and Sale Conditions of Entry

- No age restriction in any class. Entries will be taken on the day (Tuesday 6th February between 11.00am and 12.30pm after classification).
- All sheep should be healthy, Brucellosis accredited and Footrot free. Rams and display sheep must be free of external parasites, if detected all sheep from that stud will be immediately removed. A health statement must accompany all entries.
- 3. Show entries are confined to Sale Rams only.
- 4. All rams must bear a state Sheepbreeders' regulation shearing inspection tag (March or August 2023).
- 5. The judge's decision is final and no disputes will be entered into. Any subject not covered by the conditions will be decided by the NMRBA Incorp. committee.
- 6. The NMRBA Incorp. committee will not be held responsible for any loss, damage or injury whatsoever incurred or caused by exhibits, exhibitors or property.
- 7. All show sheep to wear compulsory micron tickets (on poll) for judging (AWTA micron to be displayed).
- 9. All Show Classes must adhere to visual appraisal of 80's / 74's / 70 / 64 counts. Ultrafine classes must be 17.5 mic and finer (AWTA Test).
- 10. The Vendors, Agents, Committee and associated companies will not be held responsible for any disputes that may arise in relation to test results of micron measurements.
- 11. 1% commission to outside agents, notifying 24 hours prior to Sale.
- 12. August Shorn rams will be judged separately. Open to both horned and poll rams.
- 13. The NMRBA Incorporated rely totally on the information supplied by the vendor. Purchasers should check details with the vendor.
- 14. Stud averages for the sale are calculated on the rams offered for sale on the close of agent books on sale day on three year rolling average.
- 15. All nominated show sheep to be classified by Judges.
- 16. Microns on display must be from samples taken.
- 17. Pen of three (3) rams must be from the same registered stud number. To be judged under uniformity of wool and type. Must be from the same shearing.
- 18. A separate March Shorn Poll section exists. Scurs should not exceed 25mm.
- 19. August shorn rams to be penned and sold in same run of rams from each vendor. March shorn rams will be lotted first.
- 20. A ram that is under a sale contract is not eligible for exhibition or sale.
- 21. Sale will be interfaced with Auctions Plus .

NERSTANE MERINO STUD

A/C: Nerstane Pastoral Co 738 Nerstane Rd Woolbrook NSW 2354

Mob: 0429 772 778 (Hamish)

Registered Flock No. 3298

Email: hamish@nerstane.com.au

Mob: 0429 772 778 (Jock)

OJD Status MN3

Stud History: The McLaren family established Nerstane Merino Stud in 1965. The Nerstane Merino breeding flock comprises 4000 ewes with 1800 stud ewes. From 1967 to 1988 the only introduction into the stud were rams and ewes from Koonwarra Stud, Crookwell. We are constantly progeny testing other bloodlines using Al against Nerstane's top proven sires, to try and gain further improvement.

Stud Objectives: Nerstane's Merinos are bred to maximise commercial productivity by producing large framed, heavy cutting easy care sheep bred in high summer rainfall. Nerstane's wool is noted for its soft handle, long staple & deep stylish crimp. Our recent review and update of the Nerstane index has increased emphasis on wool cut and body weight to achieve considerable gains in both these traits - an additional 7% in adult clean fleece weight and 2kg of bodyweight at 10 months of age. The emphasis on bodyweight will increase early age weight gain while at the same time maintain as much as possible adult ewe body weights. Emphasis on staple strength, CV and WEC will be continued to allow Nerstane clients to improve wool returns and reduce costs associated fly and worm control.

Nerstane is offering one stud ram, Rule 19 March Shorn, with an average adult fleece line over five years of 18.0 microns.

Registered Flock No. 3994 Email: dmerino@bigpond.net.au

OJD Status MN1V

The stud was founded in 1983 by BJ & RM Davis with the purchase of a Merryville ram and 100 stud ewes and their lambs from Tulangi Stud 996, sires introduced since have been from Merryville based studs. Additional stud ewes were purchased from Merryville No. 56. Bede Davis & Sons classed the stud until 1995 when John Williams of Cooma was introduced as the stud's classer. The stud, now comprising of 1150 stud ewes joined to lamb for the 2023 lambing. The stud is renowned for their large frame, heavy cutting 18 micron sheep.

Demondrille is offering three stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 17.8 microns.

The 'Alfoxton Merino Stud' was founded in 1984. 80 Poll Merino ewes were purchased at the Cromarty Stud dispersal in 2005. A Poll Stud was registered: Flock No. 1333. At the Armidale Show and Sale 2009 Alfoxton President was awarded Champion Superfine Ram and sold for \$18,000 top price. At the Australian Sheep and Wool Show Bendigo, a son of President 08387 (diplomat) was awarded Champion Superfine Ram and sold for \$46,000. Alfoxton won the Sale Ram Production class at the Dubbo National Show & Sale for the second year in 2017. ALFOXTON 150430 then sold to Roseville Park and Yarrawonga studs for \$30,000 at that sale. Alfoxton won Australian Supreme Merino Ram in 2019.

In 2022 Alfoxion exhibited the Grand Champion Poll ram. He was purchased by Kurrajong Park for \$14,000.

Alfoxton is offering three stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 18.0 microns.

FABSTOCK

Complete feed

Fabilition stud feed mixes after a complete feed package from when the animal is weared through to sale day. Peter has designed different mixes for all different wool types and breeds ranging from a superfine metino through to a Poli Dorset

The weaner mix's a high energy feed designed to achieve maximum growth rates. While the animal is young the amount of feed required is far less so the cost involved are kept to a minimum.

A noutshment mix is used six weeks before shearing to help produce a noutshed tip. A dry tip cannot be changed into a noutlihed tip a couple of months after shearing it needs to be fed and worked on long before the animal is shorn. A general wool growing mix is used for the majority of the time, this mix. keeps the body and wool growing without letting the arimal go to fat which can hinder wool style and growth as well as fertility.

Rams can be put on a finishing ration four to six weeks prior to the sale to add extra bodyweight and finish to your sale rams.

Peter encourages communication during the time your stud sheep are on Fabstock to make shore things are ticking along nicely and to stop any potential problems early should they

For the stud breeder who mixes his own feed Fabstock can supply you with a

complete vitamin/Mineral concentrate designed to produce maximum results from your mix. Special ingredients you may not have access to such as inseed meal can be added to the mix on your request.

Peter is currently working with some of the top preforming bloodines in Eastern Australia Including Oakbank; Glendonald. Towalba, One Oak, Haddon Rig, Boonoke, Wanganella and One Oak Poll, Willandra, Hillcreston, Western Plains Poll, Hinesville Greenland, Karoola Downs, Borambil as well as Mr Ascot and Well Gully QLD:

LY ETWEKLY ETT & We have been using Fabstock for about 18 months and have seen a marked improvement in our stock. It's got everything trie animal needs in the correct form that they can utthe I would recommend Fabsfack to arrivane who cares for their sheep. 33

> Collyn Garnett Willemenup Poll Merino Stud Gnowangerup, WA

One Ook 118 "George" Rababank Autholian Ram of the Year 2013

■ Fabstack Wed has out show team in top condition and their wool with bloom at all times. We also use the Fabstock lick for our young rams to help keep their growth rate even throughout the year.55

Graham Wells One Oak Merino Stud

Feed Fabstock & Improve your livestock's health, nutration and growth rates from only 3c/head/day with sheep and 17.5c/head/day with cattle.

NEW SUPER CYCLE

Fabstock Super Cycle is designed to help increase ovulation in ewes and cows prior

to natural joining as well as Artificial Insemination.

Super Cycle is recommended to be given to ewes/ cows 4 weeks before and during joining

STUBBLE MIX

Stubble mix is designed to obtain maximum. production from low value dry summer feed such as cerear crop stubbles and dry natural pathwes. With the use of methionine Sulphur. Urea and Vitomin D your livestocks appetite for dry feed can be stimulated. and this fixed can then be converted into higher profein levels

his mix is designed for sheep and cattle to obtain maximum body weight gains in a feedlof shuation. As well as providing at essential Vitamins, minerals and trace elements Fabatock Feedlof mix also contains buffers and Bovalec to help control acidosis and promote healthy growth severis.

KICK START

This mix is delegated to desist in the simulation and development of the immature weaver rumen therefore helping in the prevention of weaper setbacks. Kick Start contains all the necessary Vitamins and immedia needed to keep your weaners going forward and aid in the build up of the immune system. Dextrose and Sovatec aid in the easy growth of your

RAMBOOSTER

A special mis designed by Peter Harvey to assist stud breeders in obtaining maximum body growth while assisting in improving nounthment and quality of woof in their young rams

LACTATION PASTURE MIX

The mix is for sheep and cattle before and after pregnancy. Containing higher levels of Ctricium. Magnesium and Phosphurus. This mix will help in the pevention of Grass Tetany and Pregnancy Taxaemia This mix will also increase weight gains for livestock graping writer pathires and cered

STATION MIX

A low budget mis produced for large sode grazers wanting to maintain and increase production and growth levels in large numbers at a reduced cost. Station Mis still provides your livestock with most of the required minerals without the expensive vitamins and frace elements.

The Bocoble Stud is one of the oldest fine wool studs still operating in New South Wales. The Stud now celebrates 122 years of careful management and breeding. The Bocoble Merino Stud was founded on the famous Mudgee blood in 1893 by the purchase of 200 ewes from the late GH Cox of Burrundulla, Mudgee and 40 ewes from the late AH Cox of Wallinga, Mudgee. Rams of the same blood were used until 1944 when Merryville blood was introduced and continued since that time.

Bocoble sheep are noted for both quality and quantity of their wool, shown by an outstanding show record with both sheep and wool. The studs long term adult average micron is 17.5.

Bocoble is offering five stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 17.0 microns.

Grathlyn Stud was founded in 1935. The Stud breeds predominantly within itself, but periodically an outside sire is introduced. In recent years we have introduced an ET program allowing us to maximise our superior ewes and access the country's leading sires through AI. This program is currently producing the majority of our sires.

Grathlyn is offering six stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 15.9 microns. Vendors Test

Laraben Poll Merino Stud was established in 1998 with the purchase of 102 Cudgegong Poll Merino Ewes. We aim to breed heavy cutting, fine / superfine sheep that suit the tablelands environment. Our five year adult sheep average 17.8 micron. Our breeding mostly consists of our own genetics with the introduction of Wurrook, Merryville, and more recently Willandra and Yarrawonga.

Laraben is offering two stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 17.2 microns.

Mob: 0428 478 696

OJD Status MN3

Egelabra Stud is one of the oldest pure Merino studs in Australia. The sheep are noted for their high yielding heavy cutting fleece; bright white, well-nourished wool. This wool is extremely popular in higher rainfall areas with its high resistance to fleece rot and fly strike. Egelabra sheep have been line bred for over 135 years, no outside blood has been introduced, which guarantees they will breed true-to-type. They have an excellent eye muscle depth which is well above the Australian Merino average. All these traits have led Egelabra Bloodline sheep to be in huge demand selling at premium prices.

Egelabra is offering six stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 19.0 microns.

OJD Status MN3

Queenlee Stud was founded in 1935 on Merryville and Tasmanian blood. We have been breeding fine and superfine merinos for over 140 years. Our immediate aim is to maintain our average micron of 17.1, crimp frequency and keep improving fleece and body weight, we also aim to breed large superfine sheep with good constitution, good bone and covered with stylish, dense, soft handling wool. Queenlee shore over 21,000 merinos in 2022. In 2020 we introduced the first poll genetics from Laraben and Wurrook. We are very happy with the results over the past three years. Queenlee will replicate selection criteria from their horn stud, using Al annually to choose superior genetics and strict selection of their progeny. 35th Annual Queenlee On-Property Sale on Tuesday 13th February, 2024.

Queenlee is offering one stud ram, Rule 19 March Shorn, with an average adult fleece line over five years of 17.1

Waverley Downs Merino Stud was founded in 1985 is based on Merryville bloodlines. We continue to select for frame size, good bone structure, wool softness and style. We are especially focused on the real profit drivers kgs/head, body weight and lambs weaned. This along with careful attention paid to maternal instincts of the ewe base. Our fertility is exceptional, consistently scanning above 60% of ewes with multiples over the last 15 years, resulting in more lambs weaned per ewe unit. In 2023 at the GSSM Show we won Champion March Shorn Fine Wool Ram and Champion Shorn Fine Wool Ram.

Waverley Downs is offering two stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 17.5 microns.

STANLEY VALE STUD

A/C: T, S and D Bower, T/A Stanley Vale Partnership 'Stanley Vale' 77 Stanley Vale Lane Uralla NSW 2358 Registered Flock No. 4595 Email: stanley vale@hotmail.com

OJD Status: MN3

Mob: 0421 704 598 (Tim) 0423 327 690 (Dominic)

Tim and Dominic are the 5th and 6th generation at Stanley Vale. Wool has been produced on Stanley Vale since the late 1800's. The breeding objectives at Stanley Vale over the last ten years has been to increase both fleece and body weights, while maintaining traditional wool style and micron sought by the Italian market. As a result fleece weights have increased by 28%, while the whole clip average is 16.4. All rams have ASBV's and Objective Fleece test results. Our web site link is www.stanleyvale.com.au.

Please Note: Stanley Vale will be selling rams by Private Treaty in 2023. Rams available from mid January 2023. Contact Tim or Dominic or your preferred agent to arrange an inspection.

Stanley Vale is offering three stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 16.4 microns.

Glenbrook Merino Stud was founded in 1985, based on Merryville and Grathlyn blood lines. Glenbrook's flock average is 16.7 micron. Our breeding emphasis is based on producing highly profitable superfine Merino's, with larger framed, structurally sound, heavier cutting sheep, whilst maintaining traditional superfine wool traits of bright, soft handling, defined crimped wool.

Glenbrook is offering three stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 16.7 microns.

AIRLIE MERINO STUD

Registered Flock No. 2225 / 1283 A/C: Iona Partnership 'Iona' 1642 Brackendale Rd Walcha NSW 2354 Email: airliemerino@gmail.com

Mob: 0429 918 631

OJD Status MN2

Airlie Merino Stud was founded in 1954, due to the retirement of previous owners Reg & Pam Power. Airlie has been relocated to Walcha and is being run by Murray and Michelle Power. Our goal has always been to breed well balanced sheep that meet the requirements of both the wool and meat industry. Producing white, well defined, deeply crimped and highly nourished 18—19.5 micron wools, on large framed, structurally correct, easy care sheep, keeping constitution, productivity and wool cut as priorities.

Airlie is offering two stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 18.0 microns.

KURRAJONG PARK STUD

A/C: R & G Kent Registered Flock No. 1770 / 1160 (Poll) 'Kurrajong' 11313 Gwydir H'way Delungra NSW 2403 Email: rodney.kent@hotmail.com

Ph: 0428 101 787 Mob: 0428 101 787 OJD Status:

NIL

As Kurrajong Park Merino Stud moves into its 88th year of breeding, aims of the stud have remained consistently high, breeding sheep of superior constitution and wool quality. With marketplace and client demand we have endeavoured to breed wools of stylish character, long staple and soft handling. The stud's sire selection is paramount to maintain our heavy frame and wool cut.

Sire Selection and purchases in 2003 have included:

- Ringmaster Merryville Ram for \$14,000 at Armidale Ram Sale.
- A '99 syndicate Roseville Park Ram for \$11,000 at Dubbo Show and Ram Sale.
- ◆ 2006 Roseville Park Dubbo \$18,000

Kurrajong Park has still enjoyed the show arena throughout 2003, with great success at regional shows. This was emulated at 2003 Dubbo Show and Ram Sale with seven ribbons spread over eight exhibits; the most prestigious being Champion and Reserve Champion Super fine Ewe of the Show. Fleece exhibition remains a high priority, best being Grand Champion Fleece of the Brisbane Royal 2004, Champion Fine Ram at Armidale housed Ram Sale 2006, Reserve Grand Champion fleece Qld State Sheep Show, Reserve Champion Medium Wool Ewe Qld State Sheep Show, Reserve Junior Champion Ewe Qld Sheep show and SUPREME RAM at Armidale Merino Ram Show and Sale 2014 and 2015. Purchased Supreme Merino Ram at 2022 Bendigo Sale for \$20,000 from Glenpaen Stud.

Kurrajong Park is offering one stud ram, Rule 19 March Shorn, with an average adult fleece line over five years of 18.2 microns.

The Arakoon flock was founded in 2007 and Poll stud registered in 2014. In early January 2015, 100 semen doses were purchased from Nerstane 231, along with 67 horn ewes from the Airlie Stud, creating Arakoon Merinos FN 5102. My goal is to breed large frame sheep with heavy fleece weights, along with quality wools. These sheep are selected on their correct structures and constitutions along with exceptional fertility traits and mothering abilities. Footrot free and Brucellosis accredited.

Arakoon is offering two stud rams, August Shorn, with an average adult fleece line over five years of 18.1 microns.

MAISTER'S SWAMP MERINO STUD & MAISTER'S SWAMP POLLS

A/C: David & Tina Watson Registered Flock No. 4497 / 1284 (Poll)

'Dorlie' 86 Dorlie Lane Kentucky NSW 2354 Email: tdwatson66@outlook.com

Mob: 0429 821 799 (Tina) Mob: 0427 831 799 (David)

OJD Status MN2

Maister's Swamp celebrated it's 25th year in 2016 and as always is committed to producing traditional Superfine/ Finewool horned and poll sheep, which are big framed and heavy cutting, with bright, crimpy wool growing from a thick, loose pliable skin. With the Merryville bloodline, we have created a ewe family structured base, with distinct sheep and wool families. Our families consist of Ultrafines/Suerfines/Finewools and Fine/Mediums, now in both horns and polls. The families are all bred separately whilst complimenting each other. Allowing sheep breeders from different backgrounds to use our genetics to cater for their breeding needs. These genetics allow stud and commercial woolgrowers the ability to increase their animal's woolcuts, which is a true way to decrease their cost of production. This is evidenced by our clients Steve and Robyn Johnston "Oakhurst" Deepwater, winning the New England's wether trial conducted from 2012-2015, coming first amongst 25 other leading bloodlines. Our stud ewes averaged 6.0 kgs at 18.1 microns at the 2016 shearing.

Maister's Swamp is offering one stud ram, Rule 19 March Shorn, with an average adult fleece line over five years of 17.6 microns.

HILLCRESTON PARK

A/C: D.D & M.M. Picker Registered Flock No. 4584 / Poll 1161 2615 Bigga Rd, Bigga NSW 2583 Email: dan.d@activ8.net.au

Ph: 02 4835 2220 Mob: 0427 123 478

OJD Status MN3V

Hillcreston Merino Stud was founded in 1910 when the Picker Brothers purchased Collaroy blood ewes from G.D. Hay, 'Goonoogla', Bigga, NSW. In 1925 Sam Picker acquired a portion of the flock from his father and from that year until 1954 only 'Merryville', Flock No.56 rams were introduced.

Hillcreston Park has continued to set the same high standards that has been set in the past by our father and grandfather. Our aim is to produce larger framed sheep with a long white staple, while still holding our traditional 1PP type wool. We believe with the current meat market trends a larger frame sheep is required while still holding our traditional type wool.

In July 1992 Hillcreston Park Poll Stud was registered, Flock No.RM 1161, after the purchase of Super Bute, a \$10,000 buy at Melbourne Sheep Show and Sale in 1989 from Mt Bute Poll Stud of Linton, Victoria. In December 1989, 20 stud ewes were purchased from Mr Bute Poll Stud and 30 stud ewes from Hillcreston to raise the stud ewes to 50. In 2009 a 15 micron Stud Poll ram was purchased from Greenlands Stud and is breeding very well. Samples taken by John Bensley.

Hillcreston Park is offering three stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 15.5 microns.

HOLLOW MOUNT MERINO & POLL MERINO STUD

A/C: Hollow Mount Past. Co.

'192 Hollow Mount Rd, Bigga NSW 2583

Ph: 0428 480 702

Registered Flock No. 5106 Email: davidzouch@gmail.com

OJD Status MN3

Established in 2016, Hollow Mount Merino and Poll Merino Stud is based in Bigga, NSW and is set approx. 970m above sea level, with an average rainfall of 30 inches annually. We are based on Langdene bloodlines and with the additional introduction of Yarrawonga 193, we saw our recent show success include National Pair of the Year 2022 and 2023, Supreme Merino Exhibit Sydney Royal 2021, and Grand Champion Ewe of the Show Bendigo 2023. Our aim is to produce heavy cutting genetics with a focus on conformation and ability to handle high rainfall environments. Our 2023 sale average was \$1910 and we saw Merino and Poll Merino's travel throughout NSW and interstate.

Hollow Mount is offering two stud rams, Rule 19 March Shorn, with an average adult fleece line over five years of 18.3 microns.
